

Programme

Wednesday	Thursday	Friday	Saturday	Sunday
	Breakfast 9:00 - 10:00	Breakfast 9:00 - 10:00	Breakfast 9:00 - 11:00	Breakfast + Mathbattle
	Surrealistic numbers Søren, 10:00	Partitioner og Frembringende Funktioner, Nikolai R 10:00	Problems and Circles Mauritz, 11:00	
	Lunch break 13:00	Lunch break 13:00	Lunch break 14:00	Tournament of Towns 12:00
Opening ceremony 14:00	Scheme Theory (problems) Jingdan 15:00	Grassmannians Alex V 15:00	Blowing Up Alex 15:00	Lunch + Cleaning
Tropic Geometry Andreas A, 15:00	Dinner 19:00	Dinner 19:00	Monsky's Theorem Kevin 17:00	
Dinner 19:00	PP Karaoke, Kevin 21:00	Internalizing, Alex 21:00	Dinner 20:00	
The hunt, Alex V 21:00			Waffles	
			Mathbattle 22:00	

Surrealistic numbers:

At få jer til at opdage/opfinde de så-kaldte surrealistiske tal (eng. Surreal numbers) ved selv at konstruere dem. Arbejdsform: I bestemmer helt selv hvordan I arbejder. Jeg vil prøve at give jer motivation til at kigge på nogle specifikke ting og så sætte jer fri. Derefter kan I bare stille spørgsmål og bede om hjælp. Det bliver ikke formelt.

Blow-ups, Grassmannians: Improvised lecture going in the direction of ideas among participants

PP Karaoke: Improvisation on a random power point

Internalizing: Discussion between different parts of our own consciousness through strange exercises and intimate conversations with strangers.

The hunt: Escape room + fangeleg (without safeword, but choose a level of braveness on a scale from 1 to 10. If below 6 then stay away from the cellar.)

Opening ceremony

Mathbattle: See page 74 to 79 in <https://rb.gy/o62pmy>

Scheme Theory: According to Jingdan «*A small problem-based introduction to scheme theory with minimal prerequisites*».
Reality: An 8-page monstrosity of a note.

Cooking:

Wednesday: Søren, Andreas, Noah, Herman

Thursday: Dennen, Camilla, Astri

Friday: Andreas A, Kevin

Saturday: Carl Fredrik, Mauritz

Sunday: Nikolai, Hugo, Mathias

One should aim to buy groceries for around 300 to 400 DKK
